SANITARY RESTRICTION INST. NO.

NOTES:

No lot may be further subdivided.

Restrictive Covenants filed as inst. No. 322321.

Reference is made to the public health letter on file regarding additional restrictions.

No additional domestic water supplies shall be installed beyond the water system approved in the sanitary restriction release.

Lots shall not be reduced in size without prior approval from the Health Authority.

This plat is subject to compliance with I.C. Section 31-3805. No irrigation water will be supplied to any lot herein.

This is to certify that this plat is being recorded under the provisions of I.C. 50-1331 through 50-1333 and that all interior monuments will be set within one year from the recording date of this plat.

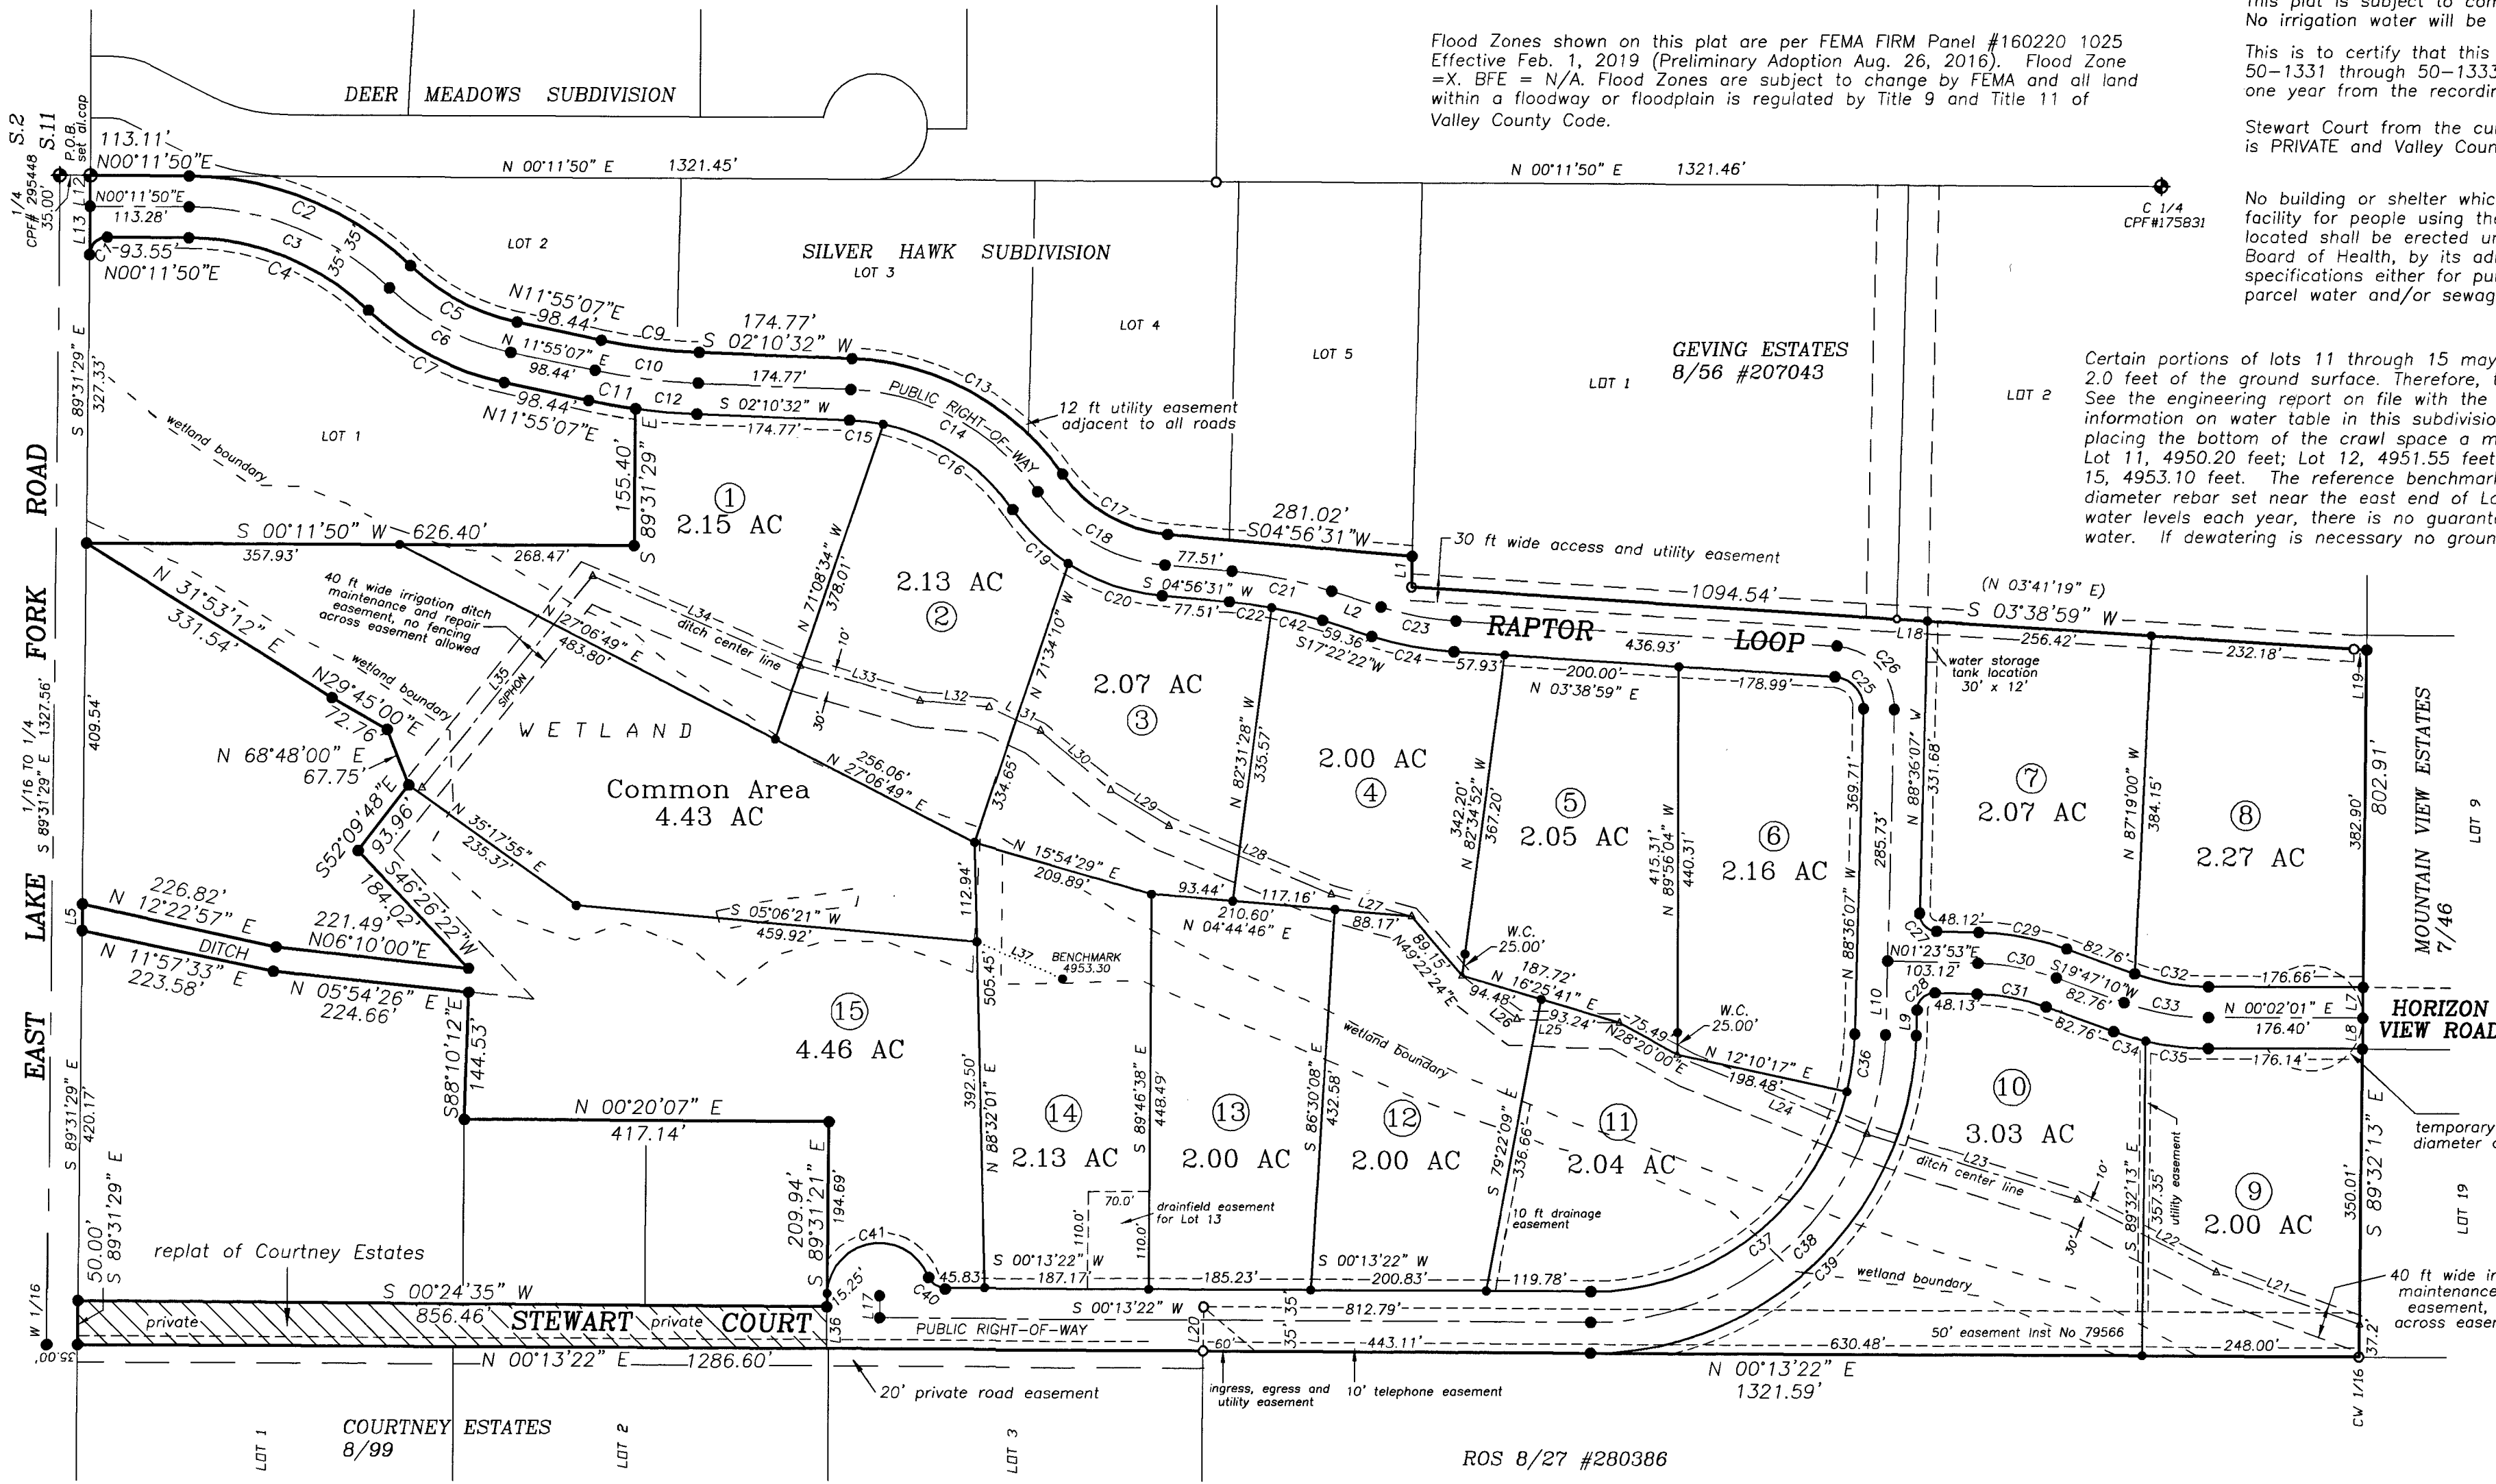

Stewart Court from the culdesac at Lot 15 north to East Lake Fork Road is PRIVATE and Valley County has no responsibility for maintenance thereto.

No building or shelter which will require a water supply or a sewage disposal facility for people using the premises where such building or shelter is located shall be erected until written approval is first obtained from the State Board of Health, by its administrator or his delegate approving plans and specifications either for public water and/or sewage facilities or individual parcel water and/or sewage facilities.

Certain portions of lots 11 through 15 may have high seasonal ground water within 0.75 to 2.0 feet of the ground surface. Therefore, these lots may require special construction methods. See the engineering report on file with the Central District Health Department for additional information on water table in this subdivision. The owners of these lots shall be responsible for placing the bottom of the crawl space a minimum of 2 feet above the following elevations: Lot 11, 4950.20 feet; Lot 12, 4951.55 feet; Lot 13, 4952.70 feet; Lot 14, 4953.55 feet; Lot 15, 4953.10 feet. The reference benchmark is 4953.30 feet on the top of a 1/2 inch diameter rebar set near the east end of Lot 14 (see plat). Due to fluctuations in ground water levels each year, there is no guarantee that this level will keep the crawl space free of water. If dewatering is necessary no groundwater will be conveyed to another lot.
